## EDUCATION

### University of California, Los Angeles

Los Angeles, CA

*Cognitive Science (B.S.), Statistics and Data Science (B.S.)*

- Cumulative GPA: 3.7/4.0
- Coursework: Advanced Python (ML, NLP), Statistical Programming in R, Data Analysis & Regression, Psychological Statistics, Experimental Design, Fundamentals of User Experience

## EXPERIENCE

### Baidu USA

Mountain View, CA

*Product Management Intern*

*July. 2025 – Present*

- Conducted user research among 10 Gen Z users, uncovering AI-powered workflow pain points that directly influenced 2 roadmap features projected to boost engagement by 20% and drive growth
- Spearheading competitive analysis of 10+ digital products, identifying 5 feature gaps informing Q4 strategy
- Led product marketing for 3 multimodal AIGC video formats for TikTok, refining prompt workflows and increasing in-app user adoption rates by 15% over 4 weeks
- Collaborated with engineering, design, and marketing to define user stories, feature requirements, and scalability

### PLVR

Remote

*Product Management Intern*

*June. 2025 – Present*

- Took end-to-end ownership of 3 core organizer dashboard features, from ideation to low-fidelity wireframing to PRD writing and user testing
- Benchmarked 7+ competitor dashboards (e.g., Eventbrite, Luma), recommending 5 usability enhancements that improved organizer efficiency
- Partnered with PM lead to define OKRs and engagement KPIs for organizer dashboard search and filtering features, aligning product goals with growth targets

### Perceptual Processing & Computational Lab

Los Angeles, CA

*Research Assistant*

*Jan. 2025 – Present*

- Analyzed 10,000+ user interaction points using statistical testing (ANOVA, t-tests) to uncover behavioral patterns
- Led usability testing on 100+ participants, validating hypotheses and improving experimental designs
- Present weekly insights guiding iterative improvements in research methodology

### Star Charge

Fremont, CA

*Product & Data Intern*

*Jun. 2024 – Sep. 2024*

- Analyzed 300K+ EV charging logs, identifying inefficiencies and reduced troubleshooting time by 30%
- Synthesized complex technical data into actionable insights for global stakeholders, bridging analytics with product strategy

## PROJECTS

### Data Analysis of Trends in MoMA Museum | Tableau, R

*Sep. 2024 – Dec. 2024*

- Processed and cleaned 157K+ MoMA collection records in R to prepare for large-scale trend analysis
- Developed interactive Tableau dashboards and time series visualizations, using data storytelling to reveal patterns in artist representation, medium popularity, and acquisition rates
- Designed and hosted user-friendly WordPress website following WCAG guidelines with alternate text

### Mapping Spotify User Listening Trends | SQL, pandas, BeautifulSoup, Spotify API

*Jan 2024 – Mar 2024*

- Built an end-to-end data product analyzing thousands of listening records to generate personalized recommendations and global market insights
- Managed SQL database of 500+ records and analyzed thousands of data points with pandas to generate personalized country recommendations
- Developed an interactive webpage to visualize dynamic time-based insights, improving accessibility for end users

## TECHNICAL SKILLS

**Tools/Languages:** Python (Pandas, NumPy, Matplotlib, Scikit-learn), R, SQL, Excel, Figma, Tableau, Useberry, Qualtrics, Git

**Core Skills:** User Research, Usability Testing, Experimentation, A/B Testing, Statistical Modeling, Data Visualization, Dashboarding, Roadmapping, Agile, Generative AI Workflows, Prompt Tuning, LLM Evaluation
